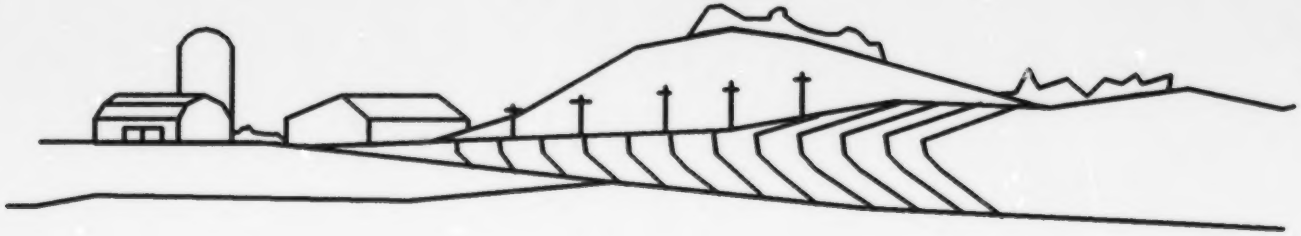
CUSTOM RATES SURVEY

GRAIN HARVESTING OPERATIONS
1989



Alberta
AGRICULTURE
STATISTICS BRANCH
427-4011

PREFACE

The Custom Rate Survey is conducted for Alberta Agriculture as a cooperative effort involving the Department Statistics Branch, and Farm Business Management Branch.

The data presented in this report was obtained by contacting custom operators and dealers and thus represent actual charges. Please note that some instances may be GNR (Good Neighbor Rates) as opposed to CR (Commercial Rates). The reader should be aware that varying conditions in different areas of the province can significantly affect the rates charged.

The intent of the survey is to provide producers with additional information to help with their farm management decisions. The quality of data is dependent on the cooperation received by producers as well as commercial custom operators. We would like to thank all those who were so willing in helping to provide information. If you are involved in any custom operations and have not been contacted but wish to contribute please call the following numbers or contact your local District Agriculturist.

GRAIN HARVESTING LEGEND

S - Swathing
C - Combining (pickup)
STC - Combining (straight)
CH - Combining and Hauling
D - Grain Drying
H - Long Distance Hauling

TA - Tandem
SA - Single Axle
CON - Conventional
ROT - Rotary
SP - Self Propelled
PT - Pull Type

JD - John Deer
MF - Massey Ferguson
IH - International
CI - Coop
NH - New Holland

ac - acres
hr - hour
T - tonne
lmi - loaded mile
rmi - running mile
mi - mile
km - kilometer

Note: Rate of Work (ac/hr) varies according to equipment, field conditions and density of crop.
